Assignment #5

Instructor: Ross Maciejewski

1 Assignment 5 Guidelines

You will download NodeXL: http://nodexl.codeplex.com/ and load a dataset of your choice. You will explore the network you create and find and document three interesting characteristics of the network. You will also provide a critique of the system. Your report should be approximately 2-3 pages in length and include figures to support your findings.

2 Deadline

- **March 18th (3PM)**

3 Grading

Grading will look at graphics, spelling, grammar and overall content of the summaries.

- o No late homework will be accepted
- o All homework should be submitted through blackboard
